R. Askarrofi Prabularizda Anggoro

Software Engineer | Informatics Engineering Student

askarrofi82@gmail.com | github.com/Askarrofi | linkedin.com/in/askarrofi | askarrofi.github.io/portofolio

---

Professional Summary

Adaptable Software Engineer and undergraduate student with practical experience in building data pipelines, mobile applications, and smart automation systems. Proficient in multiple programming languages and accustomed to utilizing modern AI toolchains to accelerate development. Passionate about exploring new tech stacks and seeking an opportunity to apply a growth mindset and robust coding fundamentals to deliver impactful software solutions.

Education

Bachelor of Informatics Engineering | Aug 2024 – Present

Institut Teknologi Sumatera (ITERA), Lampung, Indonesia

- Relevant Coursework: Networking, Mobile Development, Game Development, SDLC, Artificial Intelligence, Data Engineering
- GPA: 3.62 / 4.00

Vocational High School, Software Engineering | 2021 – 2024

SMKN 4 Bandar Lampung, Lampung, Indonesia

- Relevant Coursework: Cybersecurity, Web Development, Internet of Things
- Competency Exam Score: 96.00
- Final Grade: 90.43

Experience

Back End Developer Intern | Nov 2023 – May 2024

PT. Indonesia Indicator, eBdesk

- Designed automation scripts (web scraping) to extract high-volume data (up to tens of thousands of daily records) from various public web platforms.

- Parsed and transformed raw HTML data into structured, ready-to-process JSON format for seamless data pipeline integration.

Laboratory Assistant, Data Structures and Algorithms | Jan 2026 – Jul 2026

Institut Teknologi Sumatera (ITERA)

- Assisted professors in teaching practicum classes, specifically for students retaking the course.
- Mentored and re-explained complex programming concepts, including pointers, structs, queues, stacks, trees, and linked lists, to students across various academic levels.
- Helped students regain an understanding of fundamental logic and guided the code debugging process until their programs ran smoothly.

Web Content Administrator | Jan 2026 – Jul 2026

IWACI, Institut Teknologi Sumatera (ITERA)

- Managed and published institutional news, events, and activities on the WordPress-based website to ensure up-to-date public communication.
- Redesigned and regularly updated the website's layout and visual elements to enhance the user interface (UI) and improve overall user experience.

Projects

Intelligent Web Scraper Agent | Python, Playwright, BeautifulSoup, LLM

Self-Directed Project

- Designed an intelligent scraper agent for academic research purposes using Python and Playwright.
- Integrated Large Language Models (LLMs) to create automated self-healing mechanisms capable of detecting and adapting to DOM structure changes on target websites.

Village Public Service Registration Web | HTML, JavaScript, CSS, Google Apps Script, GitHub

Kapita Selekta Course Project, Jatimulyo Village, South Lampung

- Developed a web-based public service registration portal to digitize and streamline administrative processes for the Jatimulyo Village community.
- Collaborated directly with local village officials as real-world clients to gather system requirements and deliver a functional, user-friendly application.

Automated Plant Watering System | Arduino Nano, Soil Moisture Sensor, Relay, Water Pump

Kuliah Kerja Nyata (KKN) Community Service Project

- Engineered a small-scale automated irrigation system using an Arduino Nano microcontroller to support local community programs.

- Integrated capacitive soil moisture sensors to dynamically monitor soil conditions and trigger automated watering cycles, optimizing water usage.

Certifications & Achievements

2nd Place, LKS SMK Cyber Security | 2023

Dinas Pendidikan Provinsi Lampung

Competency Certificate: Software Development | 2024

IAII DPW Lampung

Back End Developer Internship | 2024

PT. Indonesia Indicator, eBdesk

14th Place, LappungCTF Vol 2.0 | 2025

LappungCTF

Cyber Breaker Development Regional | 2026

Satria Siber Nusantara & Peris.ai

Teaching Assistant: Data Structures and Algorithms | 2026

Institut Teknologi Sumatera (ITERA)

Technical Skills

- **Programming Languages:** Python, C/C++, Kotlin, JavaScript, HTML, Java, CSS, AppScript, GDScript
- **Frameworks & Libraries:** Playwright, BeautifulSoup, Compose Multiplatform
- **Tools & Platforms:** Git / GitHub, WordPress (CMS), Godot Engine, Cisco Packet Tracer, JSON, SQL, NoSQL
- **Hardware & IoT:** Arduino, ESP32, Microcontroller Integration, Sensor Configurations
- **Core Competencies:** Web Scraping, Data Structures & Algorithms, AI/LLM Integration, Pipeline Automation
